

HEAVY CROWN RELEASES DEBUT ALBUM LIVING LIES AGAIN

— February 14th, 2025

Following the release of their first six-track EP *Stranger Things Can Happen*, the French alternative rock trio Heavy Crown is back with their debut full-length album, *Living Lies Again*. This new 10-track record dives into themes of resilience and self-reflection, all wrapped in a sound that's both energetic and deeply emotional.

The band is made up of Duncan (vocals and bass), Simon (drums), and Victor (lead guitar). Their unique chemistry and raw power give Heavy Crown its distinctive sound.

One standout element of this album is Duncan's innovative approach to playing bass. He splits the signal from his instrument, allowing him to play both the bassline and rhythm guitar parts at the same time. This technique adds depth and intensity to the trio's sound, giving them a sonic impact rarely found in a three-piece band.

The strength of *Living Lies Again* lies in its musical diversity. From the indie rock vibes of *Flesh* to the heavier, hard-hitting tones of *Leave It To Me*, the band explores a wide emotional and sonic range.

Released on Valentine's Day, February 14, 2025, the album makes for a thoughtful gift—perfect not only for the occasion but for anyone seeking a fresh and authentic rock sound.
